Mr. Ken Cooper  
C & R Minerals  
P. O. Box 4  
Mack, Colorado 81525

Dear Mr. Cooper:

Re: Notice of Intention to Commence Small Mining Operations, C & R Minerals Mill Project, S/019/024, Grand County, Utah

Thank you for your Notice of Intention to Commence Small Mining Operations, received by the Division on September 21, 1990. The application for the proposed C & R Minerals Mill Project, located in Section 29, T22S, R24E, SLBM is complete and no additional information is required at this time.

For your reference, I have enclosed copies of our summarized rules regarding "Operation and Reclamation Practices", and the statutory penalty for failure to reclaim a minesite (attachments SMO-1 and SMO-2).

Please give special consideration to item #10 of the "Operation and Reclamation Practices" (attachment SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

A Memorandum of Understanding (MOU) between this Division and the State Department of Health requires us to notify the Division of Environmental Health upon receipt of a mining application. You are advised to contact their office prior to starting your small mining operation to determine whether additional permits and/or approvals are required. We will forward a copy of this letter and your notice to the Health Department for their review. Their address and phone number is: Division of Environmental Health, 288 North 1460 West, Salt Lake City, Utah, 84116, (801) 538-6121.

This letter will also serve as the acceptance letter for the LOB #41 Notice of Intent (S/019/025), submitted earlier. The Division had indicated that we would not accept the LOB #41 NOI until the mill site has been noticed also.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the sites. Best wishes with your mining operation.

Sincerely,

  
for Holland Shepherd  
Reclamation Specialist
